Current research shows that this business was located in Chicago during the war and it has now been listed as such in the new 3rd edition of the Civil War Store Card book. One of just three examples we have seen offered. We sold a Raw EF Detail with a few very light marks for $1,300 in our June 2013 sale. From the Alan Bleviss collection. (1500-2000)

Rare town formerly listed as OH165BP-2a, based on current research it has been moved to Du Quoin Illinois in the new third edition of the Civil War Store Card book. We sold a Raw VF+ in our January 2016 auction for $825. From the Alan Bleviss collection. (400-500)

194 - IL220A-1b R9 Raw EF Details But porous. J. M. Daggert & Co. Bates House 1864 struck in Brass. Long attributed to Cincinnati Ohio current research has moved to Dunleith Illinois in the new third edition of the Civil War Store Card book. A rare single merchant town, we sold a Raw EF+ that realized $2,025 in our December 2012 auction. Interestingly, this is the business strike for this merchant as it is the fifth example we have recorded, all well-worn. We have yet to see a Copper example. From the Alan Bleviss collection. (750-1000)

195 - IL320E-1ao R8 Raw VF Struck over another token ??? 341. Helena Hertrich Freeport Brewery, Freeport Illinois Very scarce Female merchant. Now listed over a number of other Civil War tokens. This is over a Patriotic 341 die on the obverse with only a single star identifiable on the reverse. A Raw VF Detail porous with light marks example of the more available -1a variety brought $1,950 in our December 2012 sale. While writing this description we realized we had sold the second known example of this variety in our February 2014 sale mistakenly called a -1a. It was a nice Raw EF that brought $3,472 on a (2,000-3,000) estimate...perhaps our bidders were more observant. Trains." There are a number of similar stamps for various railroads, all quite rare. They are all likely tests of presses of medal seals used to secure railroad freight cars. Often times on these counterstamps the impression is uneven or off the planchet, this attractive piece is a happy exception. Rulau plate specimen. Rulau NY Un 20 From the Dave Bowers collection from Steve Tanenbaum. (100-150)

Almost always seen on US Capped Bust Half Dollars, only four known on French 5 Francs and this appears to be the lone example on the Union et Force type (1795-1803). The stamp is particularly bold and evenly struck. We sold a Raw VF example on a more available GOOD Spanish 2 Real for $878 in our June 2013 sale, this should bring much more. 559 - MILLER CT 8 Raw MS63 40% Red mostly on the deer side. Alfred Robinson Banker, Hartford Connecticut 1861 struck in Copper with Value Me As You Please Higley Three Pence reverse and thought to be one of just 150 struck in this composition. Long planned to be added as a Civil War token in the new Third Edition of the Store Card book, it has recently been shown that they were included in auctions that took place shortly before the Civil War began. 561 - MILLER IL 8N Raw VF With a few small planchet voids most likely as made. 1846 surrounded by stars and leaves with a watch face on the reverse. Some interesting speculation, could the star and leaf punches on this token be meant to represent Biela's Comet which was scheduled to arrive in 1846. Seen approaching in late 1845 it was observed the comet had split, with two portions then visible. Though it has not been seen since 1852 it is thought to have caused subsequent meteor showers. In what seems too strange to be a coincidence, in 1883 Ignatius Donnelly speculated that just such a meteor shower remnant of Biela's Comet caused the Great Chicago fire of 1871. That fire occurred at half past nine on the evening of October 8th when "at apparently the same moment, at points hundreds of kilometers apart, in three different states, Wisconsin, Michigan, and Illinois, fires of the most peculiar and devastating kind broke out." This token of course is thought to have been made and used in Chicago during 1846 but has long remained a mystery. Rare and quite intriguing. We sold a Raw EF+ in our January 2015 sale that realized $227. Rulau Ill 100 (150-200)

562 - MILLER IL 26 Raw EF Details Some stains mainly on reverse. Pearson & Dana, Chicago Illinois struck in Brass with Plain edge on the usual 2mm thick planchet. (0-25)

591 - MILLER NY 157 Raw EF Trace Bright. Chisebrough Stearns 37 Nassaw St., N-York struck in Brass with Reeded edge. Both the merchants name and street name are spelled incorrectly. Though not mentioned in Rulau this is from third reverse with the leaves above rather than proceeding the S in Silk. Very scarce variety. From the Dave Bowers collection. (50-75)

592 - MILLER NY 158 Raw VF Details Tiny dents. Chisebrough Stearns 37 Nassaw St., N-York struck in Brass with Reeded edge. This is from the not pictured fourth obverse with both the merchant and street name spelled incorrectly and so-called Larger Ornaments. All the outer lettering and ornaments seem larger and more closely spaced but to us the most obvious difference to Miller NY 157 is the scroll work after ST which end much closer to CO. Though not mentioned in Rulau this is from a third reverse with the leaves above rather than proceeding the S in Silk. Very scarce variety. From the Dave Bowers collection. (25-50)

593 - MILLER NY 234 Raw EF Farmers and Mechanics Life Insurance Co., New York struck in Silver with Plain edge. (100-150)

594 - MILLER NY 239 Raw MS62 30% Bright. Female Preventive Or Morsonic Amulet stuck in White Metal 35mm Plain edge. Unlike the more commonly known Boyd's Battery who's wearer was promised purified blood, this Amulet was apparently worn or carried by a pregnant woman to assure a male (More Sons) rather than a female birth. This piece is White Metal while most others were made in three layers, two brass with a lead or other white metal center. Perhaps that unusual composition was needed to generate the needed magnetic or electric fields required to perform the advertised task. Possibly made for collectors or as a die trial, exceedingly rare and one of the classic rarities in the Merchant token series that is only represented in Rulau with line drawings. We sold a Raw MS62 of the Brass sandwich type in our March 2008 sale for $3,300. From John Ford and F. C. C. Boyd collections March 1958. (2000-3000)

747 - MILLER NY 951H Raw AU+ Somewhat dark and mottled toning perhaps an attempt at Bronzing by the manufacturer. H. B. West's Famous Trained Dogs, New York with obverse picture of two dogs pulling man in a carriage muled with Doremus & Nixon Steamboat reverse stuck in Copper with Plain edge. Very rare, Rulau states "only 1 struck" Tanenbaum collection. This is not the Tanenbaum piece which is brilliant with much red. Steve Tanenbaum also had an example of NY 951G (1 known per Rulau) with toning similar to this piece while the Dave Bowers example is brilliant with much red. Perhaps the maker intended both of these die varieties to be separate unique varieties, Copper and Bronzed. Rulau refers to the Tanenbaum example as being lot 850 in Woodward's June 22, 1886 auction and perhaps that is where the mintage number originates. We do not have that catalog, but if any reader does we would love to hear that lot description as well as any surrounding lots that may relate. From the Dave Bowers collection. (400-500)
